Gilpin County to Host Public Open House for 2024 Community Wildfire Protection Plan (CWPP) Update

Gilpin County has taken proactive measures to protect its communities and infrastructure from wildfire hazards by contracting SWCA Environmental Consultants to develop an updated Community Wildfire Protection Plan (CWPP) for 2024. The CWPP will serve as a guiding document that will assist the County and landowners in making informed decisions with respect to wildfire preparation and management.

On June 8th, 2024, Gilpin County will host a public open house at the Gilpin Community Center located at 250 Norton Dr, Black Hawk, CO 80422 from 10:00 am to noon for the 2024 Gilpin County CWPP Update. This will be an opportunity for the community to learn about the CWPP, visit with Gilpin County staff and fire department personnel, and ask questions about the CWPP development process. Information will be on display and light refreshments will be provided; a short presentation will take place shortly after the start of the meeting, around 10:15 AM. If you are unable to attend in person but would still like to learn about the CWPP and provide comments, information and a digital comment form can be found here:
